## *Onomichi / 尾道*

*Vodka, unfiltered sake, spicy ginger sirup, sparkling water and lime*

This take on a Tokyo mule is named after a donkey farm on top of a small hill overlooking the Seto sea near Onomichi Japan and it kicks just like a mule.

## *Paris Syndrome / パリ /*

*Gin, yuzu, sparkling sake & grapefruit*

Appropriately named after a transient mental disorder occurring almost exclusively to Japanese tourists visiting Paris. This is a Nipponese twist on the strong, classic French 75, cocktail.

## *The Kurosawa / 黒澤*

This Lulu version of a classic espresso martini is an homage to one of the greatest filmmakers in history, Akira Kurosawa.

Having a hard time adapting to color he preferred black and white photography, just like the colors of this cocktail. Kurosawa also means «black swamp» in English, you get it?

## *Nikkei Sour /*

## **ニッケイサワー**

*Pisco, black sesame & aji amarillo*

Developing on from the famous Pisco sour this twist uses an earthy Quebranta grape Pisco alongside toasted black sesame, Amarillo chili & kombu seaweed bitters, creating an exciting combination that is even silkier than the classic. **(S)**

## *Komako Spritz /*

## **小牧 スプライト**

*Umeshu, grapefruit, lemon & mint*

Umeshu spritzer is named after the classic Japanese novel 'Snow Country's main character and her bittersweet story. A light, fresh, built cocktail. **(S)** as a garnish, so can be made without)

## *Lulu/ルル*

**Rum, Umeshu, Vanilla and lime.**

An outstanding example of a particular person or a thing.

This our take on a classic daiquiri, and as far as daiquiris go, this one is a Lulu.
